SPIKE PROTEIN IN BLOOD SAMPLE

Thanks to the Spike Test (blood and urine) developed in a research laboratory in Italy, samples were available for analysis. With both the Spike and the 'vax' Spike

AUGMENTED NAC vs STANDARD NAC – PRELIMINARY RESULTS

% of denaturation of the Spike protein
within 24 hours

Spike

Vax Spike

Standard NAC

27%

28%

Augmented NAC

90%

99%

ZeroSpike is a research project initiated by the non-profit civil society association Federazione Rinascimento Italia (FRI).

The results of our research are available to the international community of like-minded associations and doctors.
