URINE SPIKE TRACING (UST)

WHAT IS THE UST DESIGNED FOR?

Overview

The Urine Spike Tracing (UST) procedure is a monitoring tool designed to detect the presence of spike proteins in the body and to assess patterns of spike protein detoxification over time, particularly in individuals undergoing treatment protocols with Augmented NAC.

 *Important:*

UST is an adjunctive research and monitoring tool, not a stand alone diagnostic or treatment determinant.

WHAT THE **PATIENT** NEEDS TO

HOW TO REGISTER TO UST

**HOW TO ORDER THE KIT
AND COLLECT THEIR URINE SAMPLE**

**HOW TO SEND
THEIR URINE SAMPLE**

**HOW THEIR HEALTH PROVIDER
CAN ACCESS UST AND INTERPRET
RESULTS**

Please note: UST reports are only accessible to authorized doctors and health professionals and are not available to patients or private individuals.

HOW THE PROCESS WORKS

1. U.S. LABORATORY REPORT (QFTOX)

- Quality forensic Toxicologic (QFTOX) collects and processes urine sample
- Generates raw test data and send it to ZeroSpike

*The fee is determined by QFTOX

2. ZEROSPIKE ANALYSIS

- ZeroSpike receives the data from the QFTOX lab
- Provides a graded result indicating spike protein levels.

* No additional fee for UST analysis

UST results may only be interpreted by ZSHN-affiliated doctors/health professionals with expertise in UST.

Contact us if you need a doctor at  info@zerospike.org

THE UST PROCEDURE STEPS PART 1

This information is intended for individuals/patients interested in participating in the **U**rine **S**pike **T**racing Project (**UST**)

UST REGISTRATION

1.

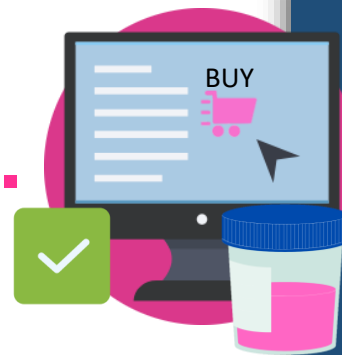

Register on the UST registration page zerospike.org/registration-ust

You will receive a confirmation email outlining the next steps and the overall UST procedure.

* UST registration and analysis are free of charge

2.

LABORATORY TESTING (QFTOX)

Order a **U**rine **A**nalysis with **C**reatinine from the U.S. laboratory **QFTOX** with which we collaborate on the UST research project. qftox.com/product/standard-urine-test-with-creatinine

* Fee is determined by QFTOX

Carefully follow all instructions on the [QFTOX page](#) to collect and submit your urine sample correctly.

THE UST PROCEDURE OVERVIEW PART 2

3.

INFORM YOUR DOCTOR

Inform your doctor about your UST participation and ask them to **login** or join **ZSHN** to access your results. They can contact us at info@zerospike.org

4.

LAB ACC.#/PATIENT ID

You will receive your **Urine Analysis with Creatinine Report** from QFTOX per email.

Share your **Lab ID code from the report** with your doctor to access your **UST report** at ZSHN.

UST results may only be interpreted by ZSHN-affiliated doctors/health professionals with expertise in UST.

Contact us if you need a doctor at info@zerospike.org
